Note:

⁽¹⁾

Seasonal salad (from non-starchy vegetables) may be raw or boiled. As for the total amount of olive oil (for lunch and dinner), it should be equal to 2 tablespoons (1 tablespoon= 3 teaspoons)

Quantities are based on cooked food, normally prepared with ½ - 1 tbs olive oil per food serving.

Feel free to consult the unit "Food Groups" in order to make changes and to develop your own diet based on your own nutritional preferences.

Meat, fish and legumes belong in the group of proteins
 Rice, potatoes and bread belong in the group of carbohydrates
 Olive oil and nuts belong in the group of fat

The Food Group of "Free Foodstuff" consists of products that include less than 20kcal/ portion or less than 5g of carbohydrates/ portion. You may consume up to 3 portions of "Free Foodstuff" daily. In case of hypertension problems, you have to be extremely careful with food that are high in salt.
